

**Office of Pharmacy Services  
Medicaid Pharmacy Program  
Preferred Drug List**

Effective Date: 07/01/2024

Updated: 8/15/2024

**Only drugs that are part of the listed therapeutic categories are affected by the Medicaid Preferred Drug List (PDL). Therapeutic categories not listed here are not part of the PDL and will continue to be covered as they always have for Maryland Medicaid participants.**

**Note: Brand names listed in parentheses are only listed as a reference.** For most multi-source products, the generic products are usually preferred and the branded innovator product is non-preferred. If a generic product is non-preferred, the corresponding brand product is also non-preferred except where specifically noted as “***(generic only)***”. PDL products that are new to market require prior authorization until they are reviewed.

cc- Clinical criteria can be found at the link [here](#)  
hc- High cost form can be found at the link [here](#)  
ql- Quantity limits can be found at the link [here](#)  
All lowercase letters = generic product.  
Leading capital letter = brand name product.

**ANALGESICS**

Drug Class	Preferred	Requires Prior Authorization
<b>Analgesics, Narcotics (Long Acting)</b>	fentanyl patches (All strengths except 37.5mcg, 62.5mcg, 87.5mcg) <sup>cc,ql</sup> morphine sulfate SR (MS Contin) <sup>ql</sup> Nucynta ER <sup>ql</sup> Xtampza ER	buprenorphine film (Belbuca) <sup>ql</sup> buprenorphine patch (Butrans) <sup>ql</sup> fentanyl 37.5mcg, 62.5mcg, 87.5mcg patches <sup>cc,ql</sup> hydrocodone ER (Hysingla ER, Zohydro ER) <sup>cc,ql</sup> hydromorphone ER (Exalgo) <sup>ql</sup> methadone (Dolophine) <sup>ql</sup> morphine sulfate ER (Avinza) <sup>ql</sup> morphine sulfate ER (Kadian) <sup>ql</sup> oxycodone ER (Oxycontin) <sup>ql</sup> oxymorphone ER (Opana ER) <sup>ql</sup> tramadol ER (Conzip, Ryzolt, Ultram ER) <sup>ql</sup>
